15-18th June 2020

Nordic Smart Government and the common Nordic Road Map

Elina Koskentalo

XBRL Finland, co-chair SBR WG

Nordic Smart Government

- Common Nordic project (2016 ->)
 - DK, SE, IS, NO & FI
- Funded by the Nordic Innovation / Nordic Council of Ministers
- Aims to create an integrated and interoperable Nordic region and to make life simpler for SME's
 - Automation of information exchange and administrative processes
 - Solutions for automation in reporting and reduced administrative burden
 - Information exchange, accessibility and security

Our vision

By digitalizing and standardizing business data and ways of interacting we can ...

- provide a higher quality real-time business data
- automate bookkeeping & reporting
- get better business insight/intelligence
- create an open ecosystem where more business services can be used
- lower the barriers to enter new market areas

Our progress path so far

2016 - Scoping and ideation

- Onboarding sponsors and building the team
- First draft of vision and concept
- High-level conceptual data model and security analysis

2017 - Defining concept

- Business case for business-to-business
- Verifying concept with stakeholders
- Overall requirements: Description of business layer and reference of architecture for ecosystem
- Proof of Concept for automatic generation of financial statements

2018 - Detailing requirements

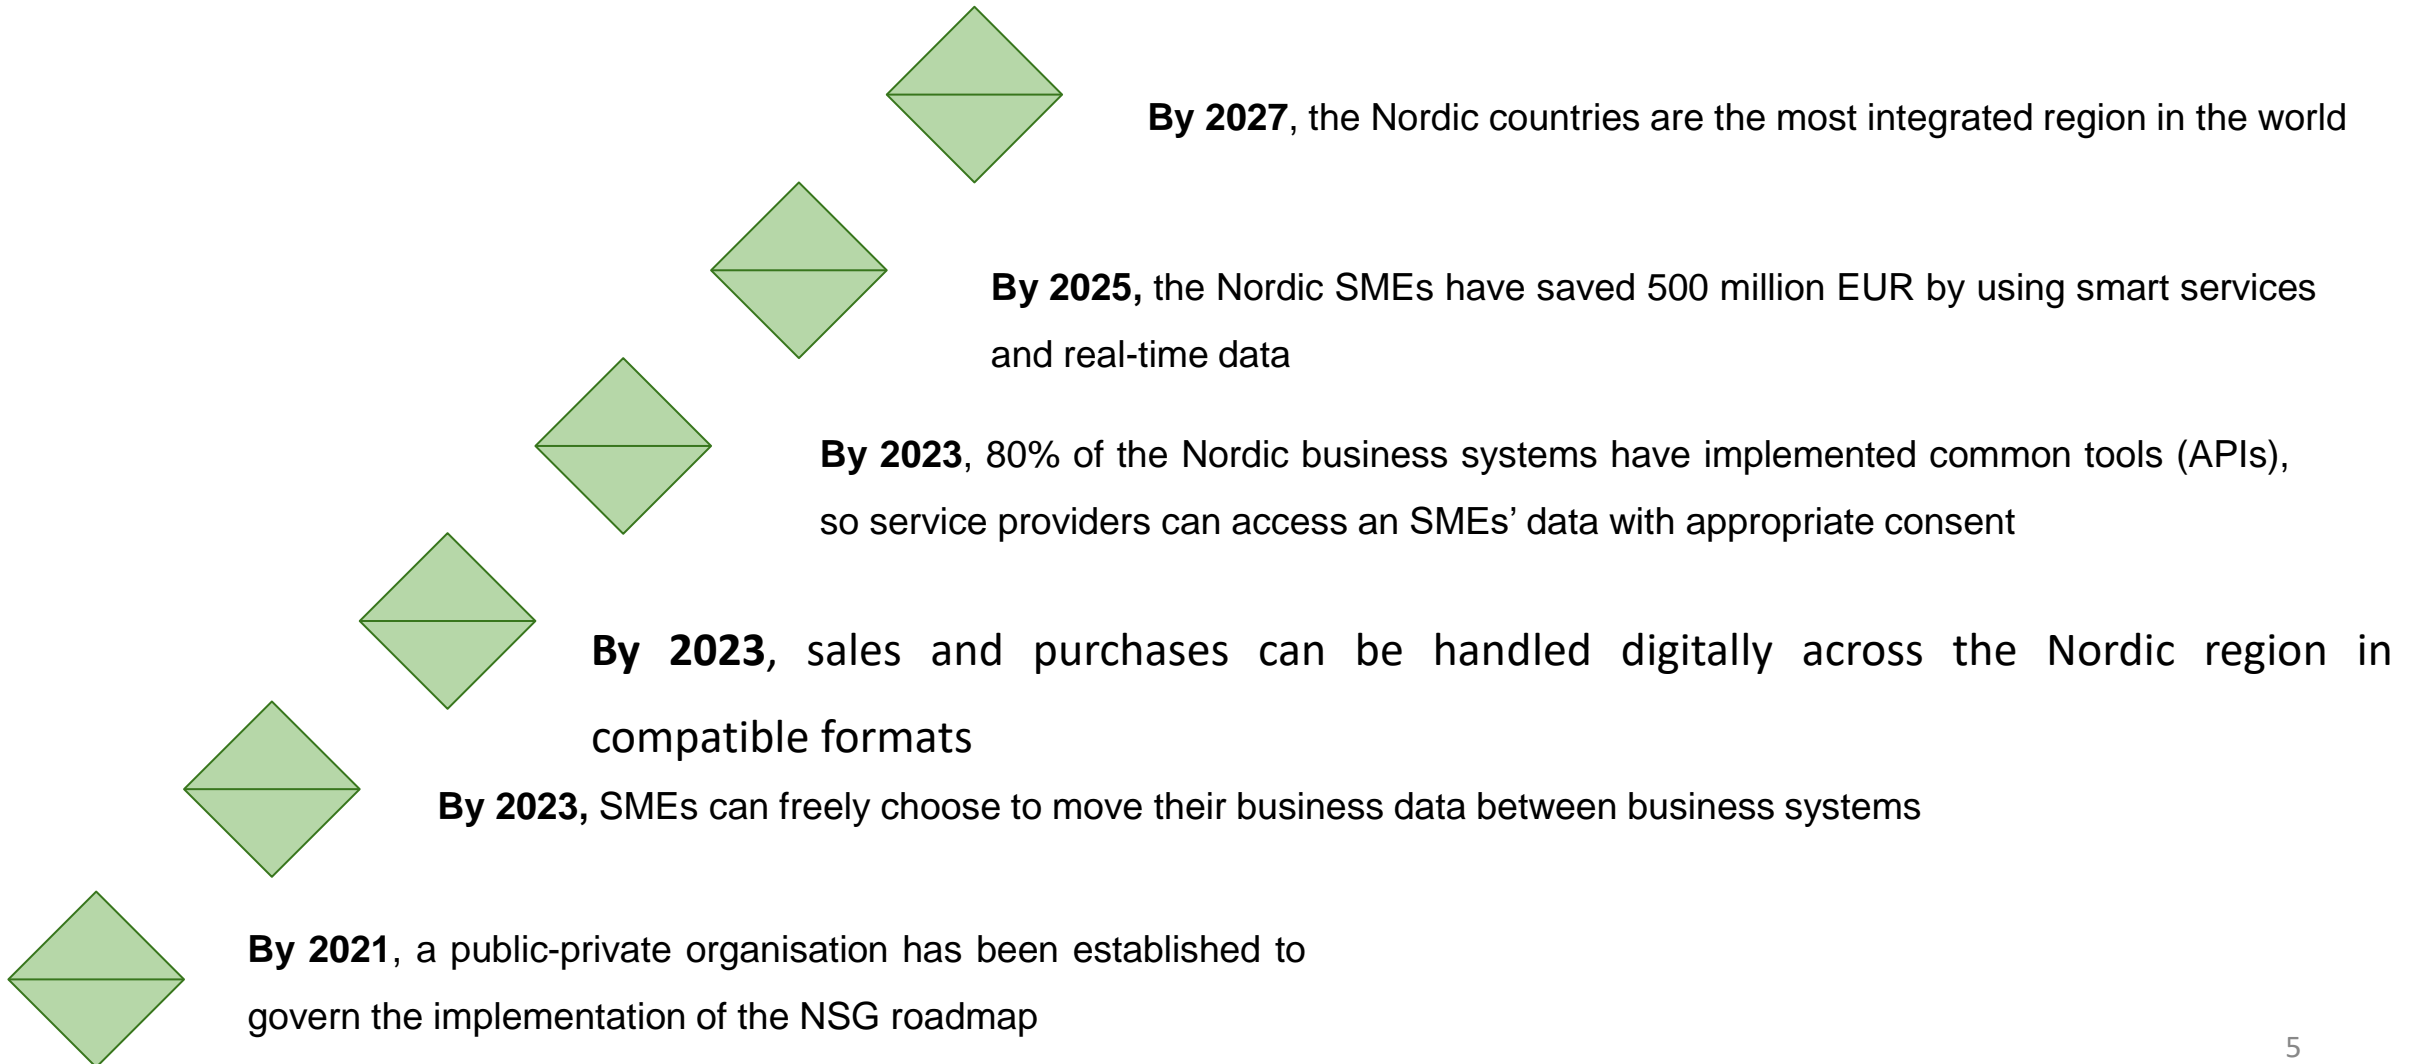

- Requirements for enabling interoperability in national and Nordic context
- Development of requirements based on user needs and together with stakeholders
- Business case
- Rules for exchange of business data
- Description of automatic business reporting
- Communication, stakeholder involvement and investigation of related project

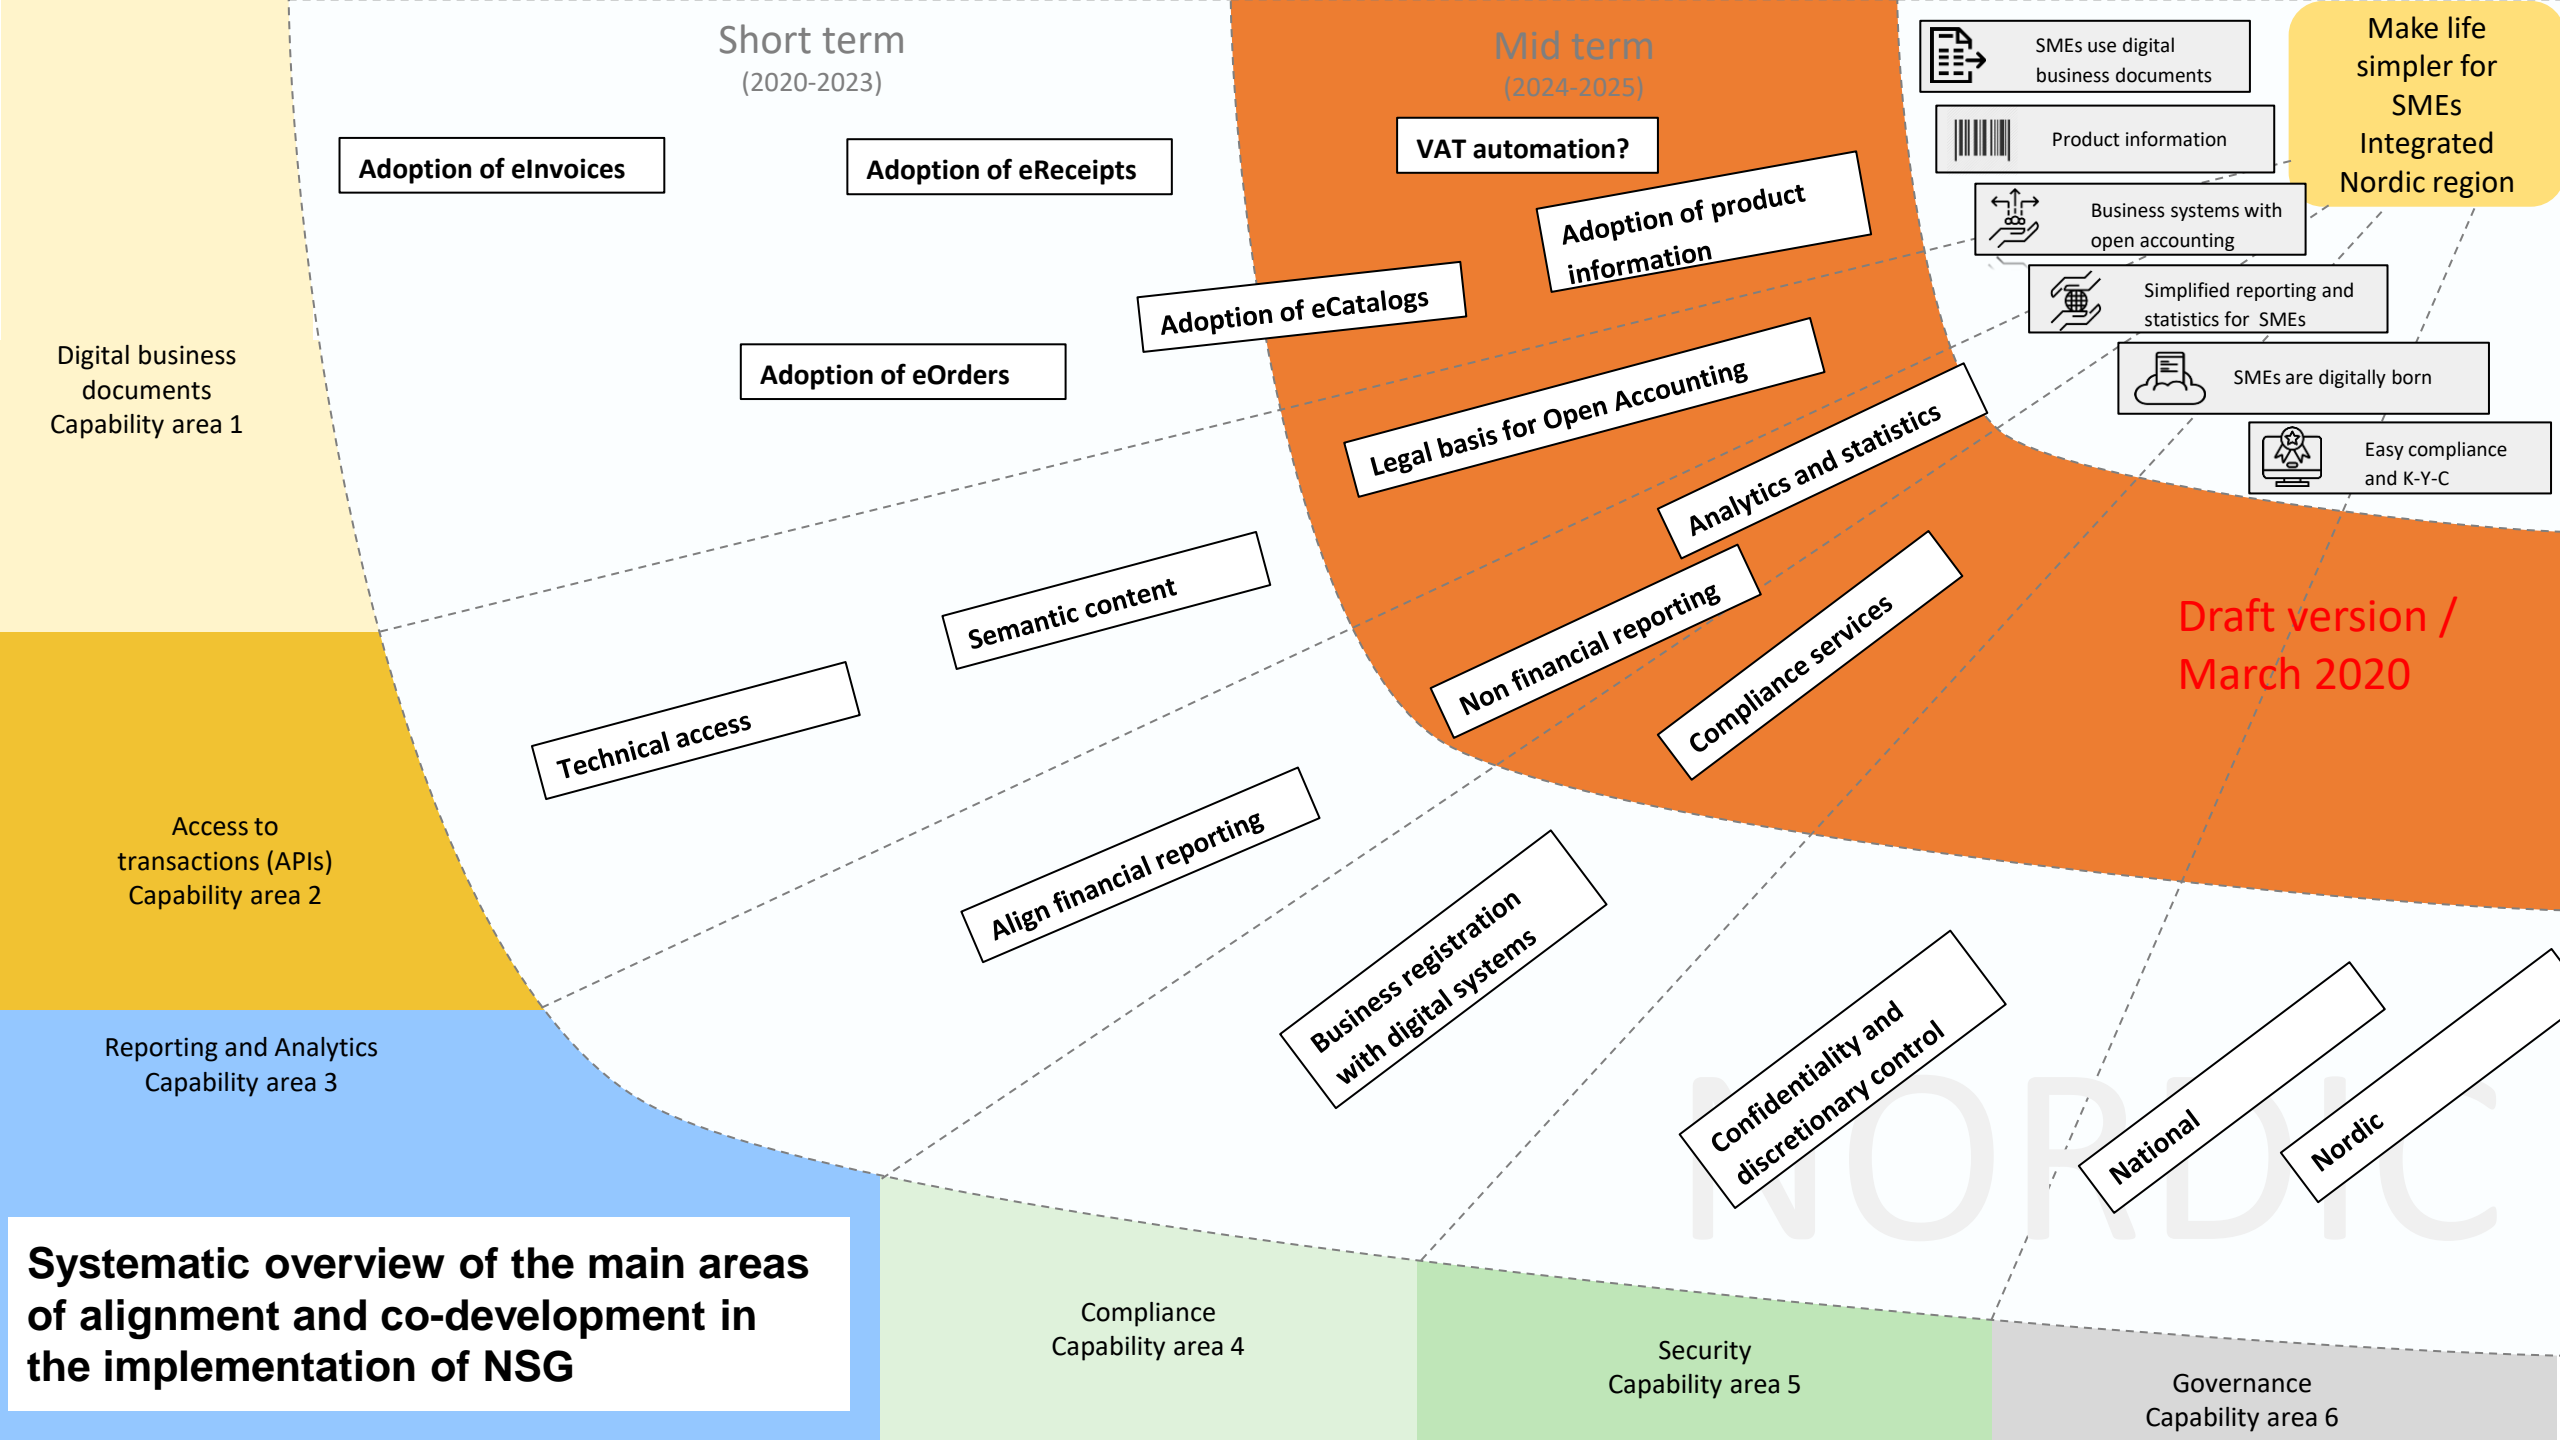

2020 - Towards realisation

- Define a governance plan for the ecosystem
- Lay out roadmap to realise the vision
- Both private and public actors are expected to deliver interoperable solutions

Milestones

Towards NSG implementation

- Push for full digitalization of business documents
- Adopt standard interfaces
- Enforce the usage of standard codes
 - chart of accounts
 - product codes
 - VAT handling, etc.
- Create the ecosystem
- Build a community

Thank you!
