

ESEF USE CASES

24 November 2021

Use case: Technicolor

- Louis Vilain – Head of Group accounting at Technicolor
- Michael Krog – Co-founder of ParsePort
- Member of XBRL Europe

Timing is key: Process and production

- Mapping produced and validated in advance
 - Harmonized quality
 - Automatic taxonomy updates
 - Speedy production time : Live demo
 - Expectations to the ESEF transition
 - Mapping audit (review + validation) in advance
 - Mapping scenario reused and automatically updated
 - User friendly platform (ESEF conversion + mapping inspection & validation)
-
