

Update form the Bank & Insurance WG

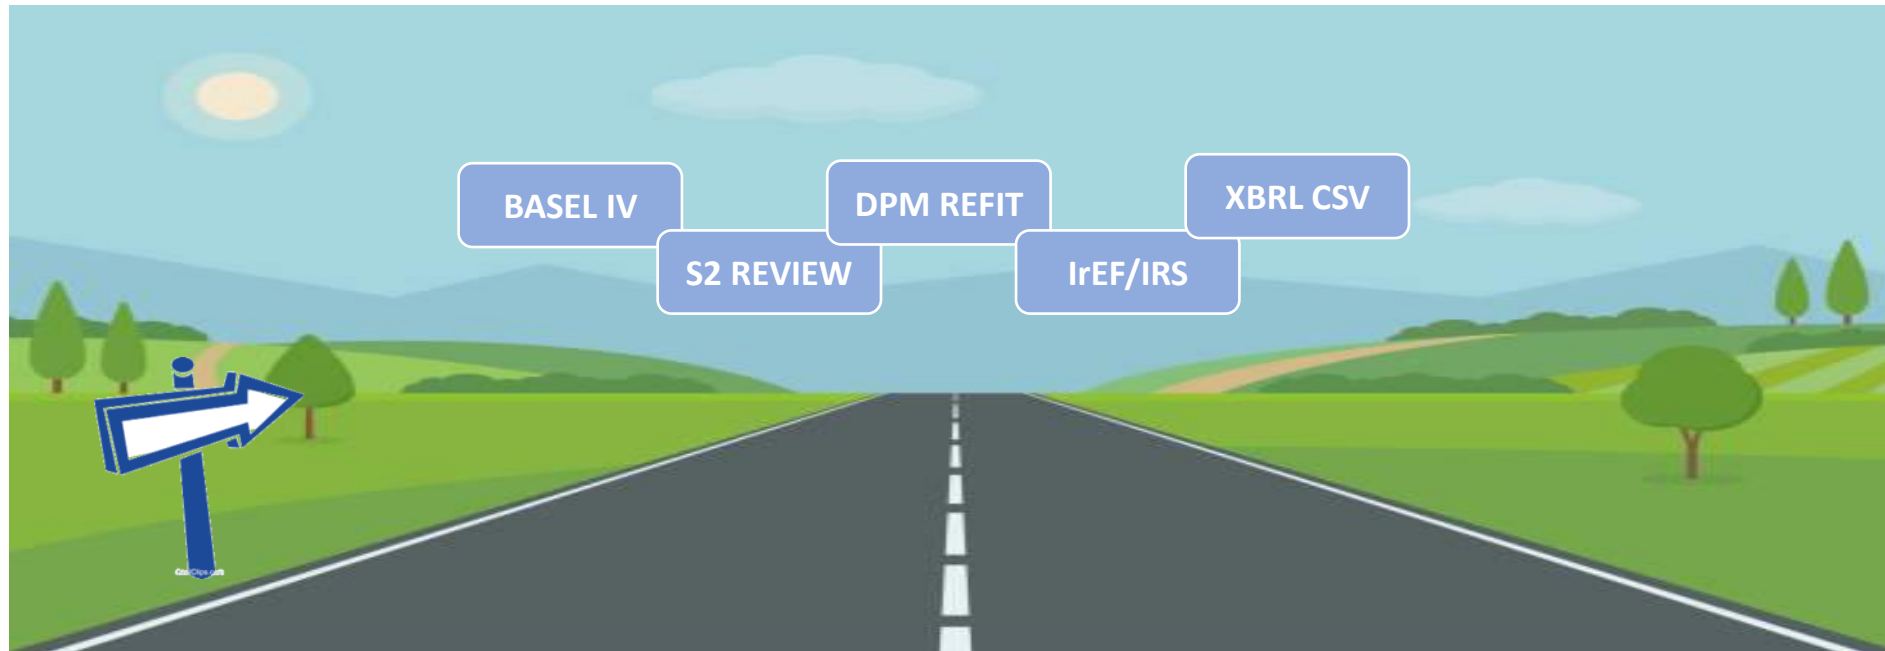

The XBRL Europe **Bank & Insurance Working Group** has been created in **2008** to contribute to the regulatory reporting process for the banking and insurance sectors in Europe (institutions under supervision of EBA/ECB and EIOPA or equivalent third-country regulators).

A renewed mandate has been launched in **2019** around:

- Updates about the regulatory reporting framework (regulations, DPMs and taxonomies)
- Points of view from filers, regulators, service providers on reporting concepts/processes
- Use cases and answer to public consultating about bank/insurance regulatory reporting in Europe
- Focus on Integrated reporting
- Focus on xBRL CSV

Update from the Bank & Insurance WG

The WG held regular meetings in 2019, 2020 and 2021, with lower activity since last June.

Based on the vision which have been given by the speakers today, this plenary session and the next WG meeting tomorrow are an opportunity to plan new works !
