- 30th XBRL Europe Conference
- 14th June 2022, Paris
- Vincent le Moal Joubel, XBRL France
- Thomas Verdin, XBRL UK

The XBRL Europe Bank & Insurance WG

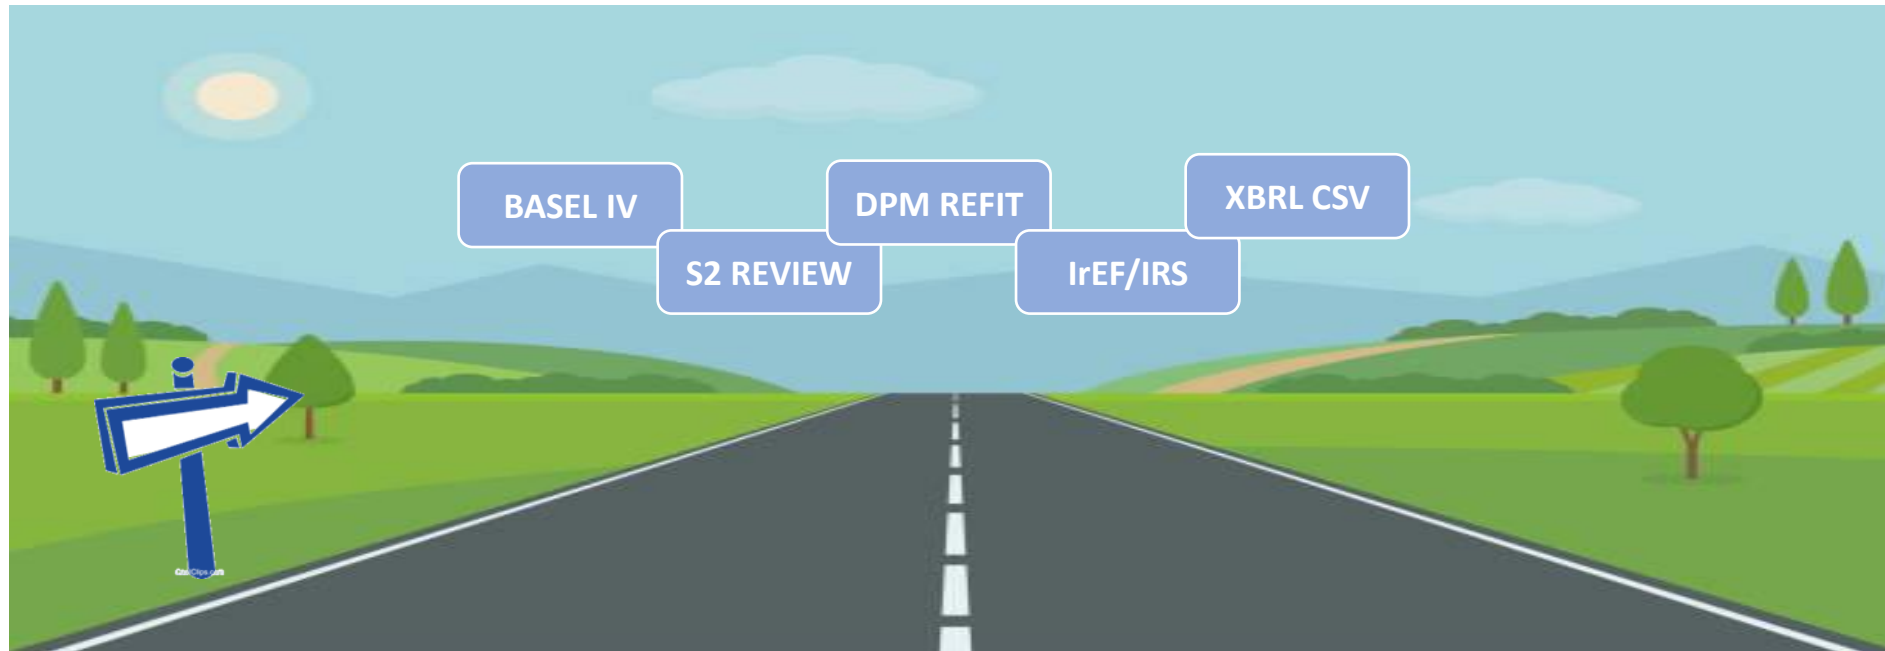

The XBRL Europe **Bank & Insurance Working Group** has been created in **2008** to contribute to the regulatory reporting process for the banking and insurance sectors in Europe (institutions under supervision of EBA/ECB and EIOPA or equivalent third-country regulators).

A renewed mandate has been launched in **2019** around:

- Updates about the regulatory reporting framework (regulations, DPMs and taxonomies)
- Points of view from filers, regulators, service providers on reporting concepts/processes
- Use cases and answer to public consulting about bank/insurance regulatory reporting in Europe
- Focus on Integrated reporting
- Focus on xBRL CSV

Our mandate and activity in 2022-2023?

The WG held regular meetings in 2019, 2020 and 2021, with lower activity since last June.

Based on the vision which have been given by the speakers in the plenary session, what are our targets and how do we get there?
